

# KICKRROLLR™

smart bike roller

## READY TO ROLL

### ALL NEW KICKR ROLLR

The KICKR ROLLR revolutionizes the classic ride feel of rollers, with controlled resistance and front stabilizers for a natural indoor training experience.

### SAFETY TIRE GRIPPER

The KICKR ROLLR safety tire gripper can hold up to a 2.1" (53mm) tire to keep your bike upright and secure, making it easy to get on and off the bike while providing confidence-inspiring stability, even when sprinting.

### CONNECT WITH POWRLINK ZERO PEDALS

Connect Wahoo POWRLINK ZERO power pedals to get the benefits of training with power. ROLLR provides power readings to within +/-1% accuracy of the power meter, allowing you to train with the same precision, indoors and outdoors.

### READY TO RIDE

Simply attach the Safety Tire Gripper, place your bicycle onto the ROLLR, and get riding. Setting up or switching bikes is simple on KICKR ROLLR, making it perfect for use with multiple bikes.

## GET THE MOST OUT OF YOUR KICKR TRAINING EXPERIENCE

### TRAIN WITH SYSTM

Maximize every Moment with KICKR ROLLR + SYSTM. Design your custom training plans, and ride along On Location Videos for an immersive training experience.

### STAY CONNECTED

KICKR ROLLR can receive automatic software updates through the Wahoo Fitness App. The ELEMNT GPS bike computer directly controls KICKR with re-riding outdoor routes, importing planned workouts or setting your target watts.

### KICKR ROLLR + POWRLINK ZERO BUNDLE

KICKR ROLLR + POWRLINK ZERO Single Sided Bundle available. Accurate to +/- 1%, POWRLINK ZERO's are built on the cutting edge Speedplay pedal platform. Use the pedals indoor or out, for the most connected training ecosystem.
